CUSTOMER INFORMATION

1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS

SIN DESCRIPTION

206-3 Including all types of solar energy products, hydrogen based energy systems, fuel cell energy, all types of renewable energy.

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:

Northern Comfort is a registered trade name and a standard solar thermal collector size is 4'x 8' @ 32 sq/ft. Collector was certified in 1986 allowing for making different size collectors in the future that would still be called "Northern Comfort."

Collectors can be installed/arrayed in two configurations:

- Landscape is achieved by putting the 4' ends together combining up-to 5 collectors in an array.
- Portrait is achieved by putting the 8' sides together combining up-to 10 collectors in an array. Larger arrays can be achieved by combining the arrays together in series and /or parallel thus giving you the capability to heat very large buildings just using the sun.

Dual Mode System Option:

- Dual mode systems include a water heating option, providing year-round energy reduction advantages. When the room air heating demand is satisfied the collector array can be used to heat water. A dual mode system can typically provide as much as 35% of a facility's heating needs and 50% of hot water needs.

COLLECTORS IN LANDSCAPE

<u>SIN</u>	<u>MODEL</u>	<u>PRICE</u>
206-3	NC-32	\$ 1,863.98

NC-32 COMBINATIONS

Landscape: 4' end to 4' end		
#2	4' x 16'	\$3,764.23
#3	4' x 24'	\$5,664.48
#4	4' x 32'	\$7,564.74

COLLECTORS IN PORTRAIT

Portrait: 8' side to 8' side		
#2	8' x 8'	\$3,788.41
#3	8' x 12'	\$5,712.85
